Metal	Mother (Yan)	Support, Dependable Resources	
Fire	Wife, father (Choy)	Fortune, wealth	
Earth	Superior/Job (Koon)	Status, power	
Wood	Children (Siong)	Ideas, expression	

Brief Analysis

Jackie Chan is a **Water Element Person** born in the late spring that he will need **Water Group elements** to rebalance his portfolio. In his life pillars, he does not have enough water group elements (not taking time pillar into consideration) therefore he will require the destiny pillars to aid him, fortunately the first two branches of his destiny pillars were his wealth pillars (this is not his favorable elements but wealth remain a good source of income generator.)

Fire Group is not in his favor; nevertheless in this case since fire is his wealth, signifies that his income generated will not be spent wisely and in certain occasions especially from age 30 to 40, his wealth was unsustainable. Not until at the age of 40 and beyond where he would go through a period of water and metal elements that he is able to sustain his wealth. This is not a coincident that 1996's Rumble in the Bronx has contributed to his wealth. (1992 to 1997 annual pillars were of Water and Metal elements). Another peak period for Jackie would be from age 50 to 60. Jackie should pay more attention to his lung related problems.

Prediction:

His best possible years ahead: 2007, 2008 and 2009 (Possible wealth increase and make critical decision in life). Worst years ahead: 2006, 2010, 2013 and 2014(avoid heavy investment, possible lost of love ones and major shit in life style)
