Fire	Mother (Yan)	Support, Dependable Resources
Water	Wife, father (Choy)	Fortune, wealth
Wood	Superior/Job (Koon)	Status, power
Metal	Children (Siong)	Ideas, expression

Brief Analysis

Chow is a **Yin Earth Person** born in the summer month that requires **Water Group elements** to rebalance his portfolio. His month stem appeared on life pillar is what he requires, 辛 *Metal*. This element is Sik/Siong also signifies his ability to act and perform. I presumed that his birth time would be around 1500-1900pm. He would require more Yang metal in his stems of branches in order to become a successful actor. For him to sustain his wealth and fortune he would require more metal and water elements. From the age 35 onwards his life pillars were all wet Earth, metal and Water. This is why during the last 5 years, Chow's progress is slowed down, since 1998 to 2003 annual destinies were wood and fire elements, in which is unfavorable for him. 1992-1997 was heavy in metal and water elements (favorable for him). He was able to make his first American debut of 'The Replacement Killer' in 1997. Chow should pay more attention to his breathing and nerve systems.

Prediction:

His best possible years ahead: 2005, 2007 and 2008. (Possible wealth increases and makes critical decision in life). Worst years ahead: 2006, 2010 and 2015 (avoid heavy investment, possible loss of loved ones and major shift in lifestyle)
