### Brief Analysis

The world richest man Bill Gates is a **Yin Fire Person** born in autumn that will require **Wood and Fire** to rebalance his portfolio. His fire energies were drained by dry earth and water elements. He needed the woods elements to create fire energies. He started his company in 1975 (Yin Wood 乙 and Yin Wood 卯), and before age of 35 his destiny pillar of wet earth (丑), also his wealth storage, dashed with his day branch (未) resulted in the Yin wood (乙) and Yin metal (辛) both surfaced on stem. Yin Wood was what he required while Yin Metal was his wealth. However, his true wealth that can be sustainable was from age 35 (Yang Wood 甲/Yang Wood 寅) to age 55 (Yin Wood 乙/Yin Wood 卯). He will have another pinnacle from age 65 to 75 where both stem and branch were *pure Fire elements*. Bill needs to watch out his health problems related to stomach or lower abdominal.

### Predictions:

**His best possible years ahead: 2006, 2010, 2011 and 2012. (Possible wealth increases and makes critical decision in life). Worst years ahead: 2007, 2008 and 2009, (avoid heavy investment and making crucial decisions, and major shift in lifestyle)**
